

Page Builder

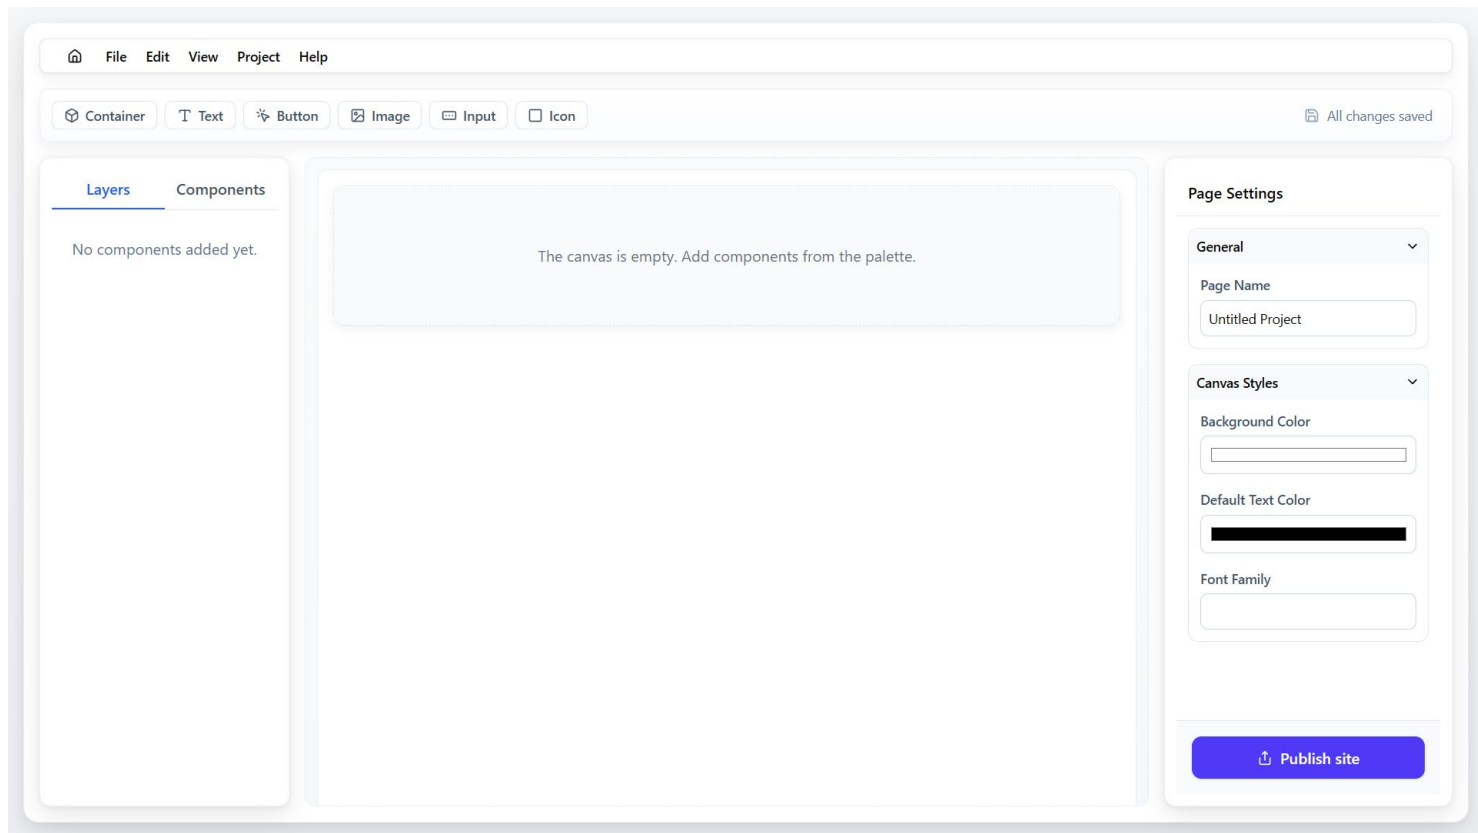

Designing pages made easy.

221164, 221018

Create a new page, or edit your existing ones

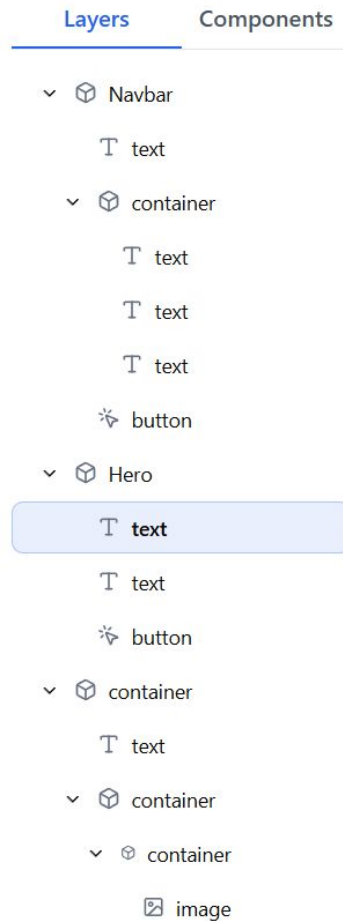

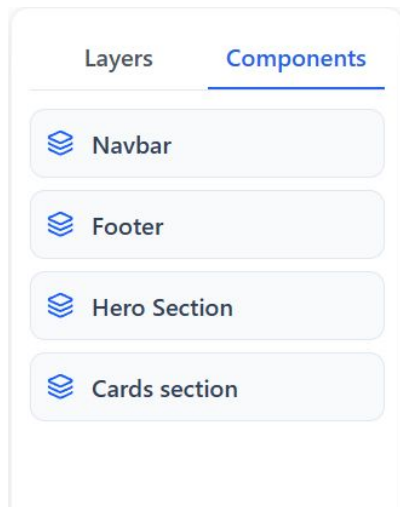

Intuitive design

Use elements to build your own components

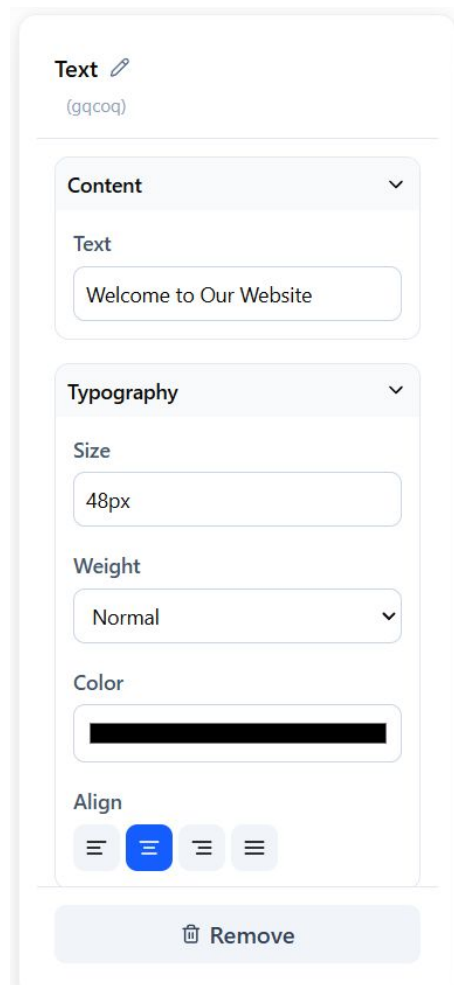

..or use the pre-built components

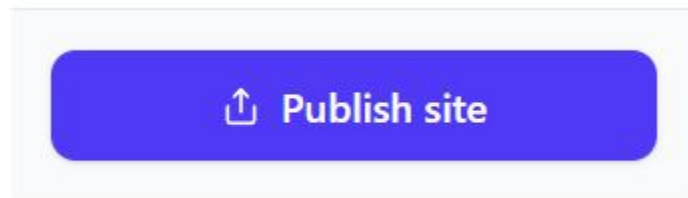

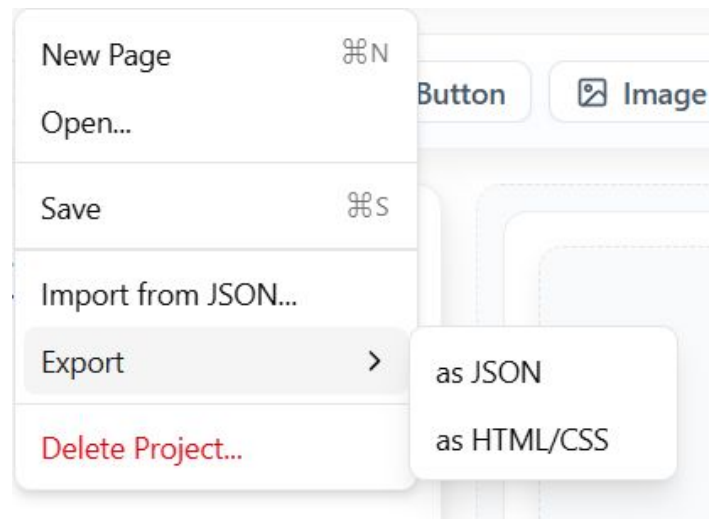

Edit all the elements
to your liking with the
simple sidebar menu

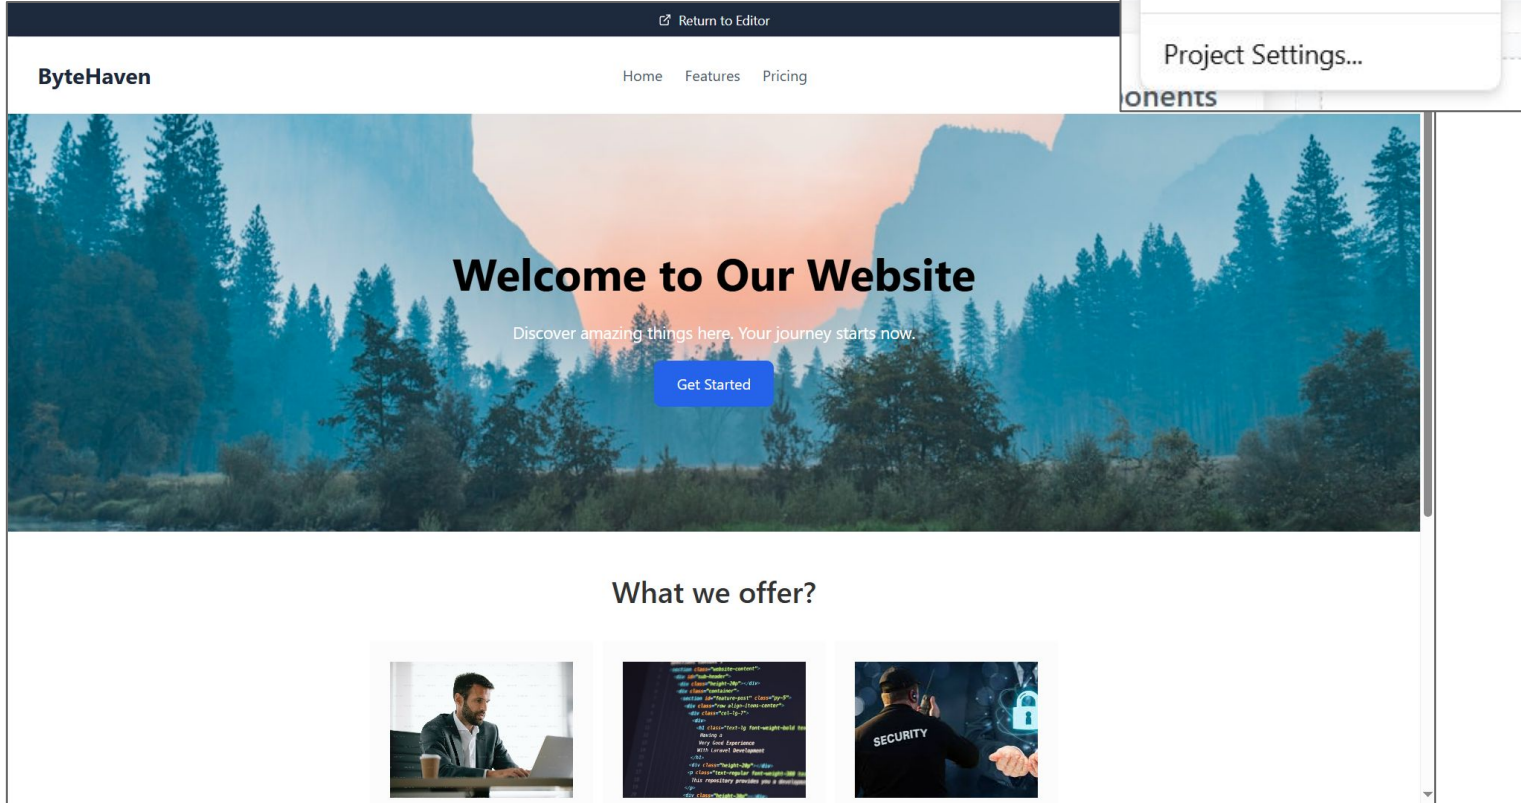

..and make the design easier
and faster using keyboard shortcuts

And when you are done,
export your design or
publish your site

When you are done, preview your page

It all comes together, to build your beautiful design
